To Whom It May Concern:

It is my pleasure to recommend attorney Perry Novotny who has lectured our various security guards and security units on the subject of the authority to detain and search.

His lectures were delivered in a straightforward and riveting manner and have contributed to the instilling of professional knowledge amongst our security personnel.

Attorney Novotny is held in great appreciation by our department for his professionalism and his readiness to provide advice and support whenever needed.

I recommend Perry without reservations. Please feel free to contact the Regional Security Office if you have a need for additional information.

Sincerely,
